1904

PREFACE

THE work is based on Miss Blackie's "Etymological Geography" (Murray, 1875), in whose book the place-names will be found arranged under the roots alphabetically. Consequently her work may very profitably be used as an accompanying manual: each, however, is complete in itself. The numbers in brackets attached to one category refer to another in which the remaining element may be studied in its own connections. Words of one element and those of three or more are excluded as not falling in with the plan here adopted, but the interpretation may, nevertheless, be investigated. A double-entry arrangement in this order not only brings together the synonyms and proximate synonyms, but also allows each element to be traced through the various tongues at sight.

From Miss Blackie's collection all have been rejected that appear to me more than doubtful: a margin is given for further corrections and for additions by students; in fact, it is a skeleton plan: this will explain repetitions in close propinquity.

Apparent inconsistencies will generally be found to indicate doubts: an interpretation may often be settled by a visit to the locality. Much work remains to be done with the place-names of our home islands, and in no way can the science be better

advanced than by a study of those in the student's neighbourhood.

A very great number must for ever remain uninterpreted : their vast antiquity alone being sufficient reason ; but the student will be constantly encouraged by finding that in his latest discovery he has the key to many another place-name also close by him.

The demarcations between the categories must, of necessity, be slight, for ideas grow ; and thus too the same element under several categories indicates extensions of meaning (which must be verified in the locality). An interpretation remains good even if the name has been meaninglessly transferred to another locality, or has been adopted for a personal name ; and all readers must be alert to the meanings which have been read into a place-name incomprehensible to our mediate forefathers.

A place-name interpretation is the more secure as both elements fall under one of the inanimate categories (1-1273).

*To Teachers and Students : How to begin ? Fill in
Index 1 and Index 2 from the first part.*

CLIFTONVILLE HOUSE, MARGATE,

June 1904

SYNOPSIS

Situation, 1-146

Size and form, 147-253

Colour, 254-338

Scenery:

Wildness, 339-365

Beauty, 366-410

Elevation, 411-656

Depression, 657-746

Levels, 747-850

Inlets and Islands, 851-926

Rivers, 927-1112

Lakes, 1113-1192

Climate, 1193-1220

Metals, 1221-1240

Minerals, 1241-1273

Plants, 1274-1428

Forest, 1429-1515

Animals, 1516-1632

Man:

Classes, 1633-1748

Settlements, 1749-2016

Defences, 2017-2119

Intercourse, 2120-2252

Enclosure, 2253-2321

Agriculture, 2322-2451

Prosperity, 2452-2465

Property, 2466-2472

Trade, 2473-2489

Joy, 2490-2503

Religion, 2504-2532

Counsel, 2533-2553

War, 2554-2583

Antiquity, 2584-2615

Number, 2616-2621

Products, 2622-2701

A synopsis not only of the main outline but of each section.

PLACE-NAME SYNONYMS

GENERAL ORDER OF NAMES.—Teutonic—German, English, Dutch, Norse; Celtic—Gadhelic, Cymric; Italic; Hellenic; Slavonic; other tongues. This order is not followed when the words have roots of common origin.

SITUATION

<i>upper end</i> , 1
